

# STEPS FOR ENROLLMENT

MIDWEST  
Autism & Therapy Center

1

## ENROLLMENT CRITERIA & REQUEST

Review our enrollment criteria and submit an online request. Our intake team will get in touch within one business day to review eligibility and provide our enrollment materials.

2

## COMPLETE ENROLLMENT MATERIALS

Return the completed enrollment packet along with a copy of your child's full diagnostic report and any insurance cards.

3

## INSURANCE AUTHORIZATION FOR INTAKE ASSESSMENT

We'll submit a request to your insurance carrier to provide an intake assessment. The initial assessment takes approximately two hours to understand child's strengths and observe any challenges. We can typically schedule the intake appointment within 1-2 weeks of receiving enrollment documents.

4

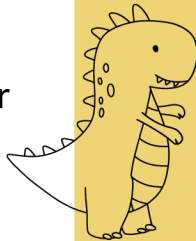

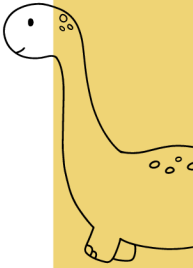

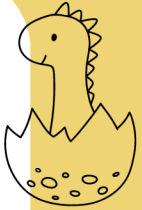

## DEVELOPMENT OF TREATMENT PLAN

Based on the initial assessment, our clinicians will create an Individualized Treatment Plan (ITP) to help address skills, deficits, and/ or any unsafe behaviors. This plan will be reviewed with you to allow the opportunity to address concerns, ask questions, and provide input on therapeutic goals. The ITP is developed and reviewed with family within 1 week of intake assessment.

5

## RECEIPT OF TREATMENT AUTHORIZATION

When your child's treatment plan is finalized, our team will submit a follow-up request to your insurance provider. Once we receive the thumbs up, we'll contact you to schedule a start date!

## ABOUT MIDWEST

Midwest Autism & Therapy Centers is an early-intervention Autism service provider with centers throughout Iowa, Minnesota, and Michigan, specializing in Applied Behavior Analysis (ABA) therapy, functional behavior assessments, and pre-academic development for children on the Autism Spectrum. Our Iowa offices offer center-based therapy services for children ages 2-5 and home-based therapy for children ages 5-17.
